13th anniversary: Truthers chip away at 9/11 coverup

41

By Kevin Barrett, Veterans Today Editor

Will the 13th anniversary of 9/11 be the unlucky one – for the perpetrators?

Though the floodwall holding back the truth has not yet broken, it has sprung a large and growing number of leaks. All over America, indications of disbelief in the official “19 hijackers” myth are puncturing the lamestream liars’ attempts to construct an illusion of unanimous acceptance of their unholy sacred narrative.

In New York, a gigantic 45 foot by 45 foot two-sided billboard in Times Square is showing the [6.5 second controlled demolition of World Trade Center Building 7](#) – and shoving it in the face of the cover-up criminals at the New York Times.

The billboard is part of a campaign to raise awareness of WTC-7, the achilles heel in the official story of 9/11. Spearheading that campaign is the High Rise Safety Initiative, which [succeeded this week](#) in forcing the mobbed-up New York city government to back off on its attempts to keep the initiative off the ballot by claiming that not enough signatures had been submitted.

The High Rise Safety Initiative would force a new investigation of the destruction of WTC-7...on the grounds that if a 47 story building can “just fall down” in six seconds from modest office fires, every high rise in New York is a hazard to life and limb. Experts believe they can now prove beyond any doubt that NIST’s “just fell down from office fires” cover story is a deliberate and preposterous lie...and that the ultra-high-security CIA-inhabited WTC-7 was taken down by controlled demolition.

New York is witnessing [pro-9/11-truth street](#)

AES11Truth is proud to announce the launch of our 13th Anniversary [ReThink911](#) Billboard in Times Square.

Every two minutes, the 15-second digital ad, consisting of two massive 45-foot by 45-foot screens, will show the free-fall descent of World Trade Center Building 7 to all pedestrians.

[demonstrations and other actions](#), including film screenings as well as the debut of an off-Broadway play entitled *This Is Not About 9/11* by Sarah Van Auken, daughter of Jersey Girl Lorie Van Auken, who did yeoman's work in the early days of fighting the 9/11 cover-up.

Washington DC is also hosting [several 9/11 truth events](#), including presentations on the anthrax component of the 9/11-anthrax false flag by Barry Kissin, raising some of issues highlighted in professor Graeme MacQueen's new book [The 2001 Anthrax Deception](#).

On America's left coast, the [9/11 Truth Film Festival](#) in Oakland, California (which is being [live-streamed by NoLiesRadio](#)) will be the site of 9/11 author-journalist Christopher Bollyn's "back in the USA" coming-out party. Bollyn has a table at the event and will be signing books and talking with festival goers. He also has [events](#) lined up in Los Angeles and San Diego this weekend.

9/11 truth also [leaked](#) onto the editorial page of the mainstream newspaper the Greenville, NC Daily Reflector. As the author of the first three 9/11 truth op-eds ever published by any US mainstream daily (the *Capital Times* of Madison, WI, which was closed down and turned into a free weekly by their parent company a year later) I am always happy to see truth miraculously appearing on a mainstream editorial page.

A letter to the editor by RL McGee on the search for 9/11 truth was published today (Wed, Sept 3rd) in the Daily Reflector in Greenville, NC, today. The letter and any online comments can be read at <http://www.reflector.com/opinion/letters/letter-seek-truth-911-attacks-2639965/>

9/11 truth also infiltrated The Daily Kos, a

CIA-Zionist left-gatekeeper rag that explicitly prohibits discussion of any non-mainstream version of 9/11. A clever woman named Katherine Smith published a facetious piece entitled "[9/11 Truthers are Dummies](#)" which parodies the usual moronic attack pieces of untruthers and disinfo artists. (She explains her real views of 9/11, which she is not allowed to publish at Daily Kos, [here](#).)

Perhaps the most audacious 9/11 truther penetration of a hostile institution this anniversary was Barbara Honegger's newly-released video [9/11 Museum Virtual Walking Tour](#). The 9/11 Museum, a shrine to the genocidal Big Lie, actually includes all sorts of

9/11 truth will be penetrating another potentially hostile environment this Saturday: the annual left activist event Fighting Bob Fest in Baraboo, Wisconsin. While at least half of the attendees are sympathetic to 9/11 truth, the organizers of Fighting Bob Fest (some of whom privately admit they know 9/11 was an inside job) refuse to schedule any openly pro-truth speakers. Additionally, Wisconsin's biggest anti-9/11-truth fanatic, a Labor Zionist communist named Allen Ruff, has been known to punch out anyone with the audacity to wear an "Israel Did 9/11" T-shirt. (This happened at Fighting Bob Fest 2009.)

9/11 truth coming to Fighting Bob Fest on Saturday 9/13/2014

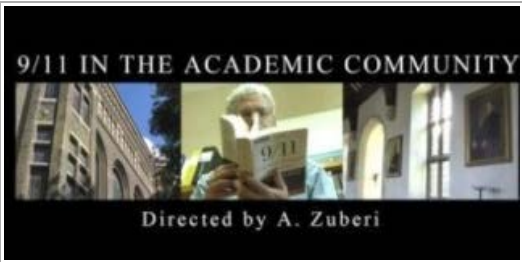

Please visit the 9/11 truth table at Fighting Bob Fest this Saturday, September 13th, Sauk County Fairgrounds, in Baraboo, Wisconsin, 8:30 a.m. to 5 p.m. I'm looking forward to discussing 9/11 with Chris Hedges, and will duck any punches thrown by fanatical anti-truther Allan Ruff.

Bring your video cameras!

After Bobfest, anyone who hasn't been knocked unconscious by Ruff is welcome to attend PeaceFest VI starting at 5 pm Highway 33, across from Baraboo Fairgrounds, At: Thunderbird Lanes, 1117 8th St, Baraboo, WI 53913.

Speaking of penetrating hostile environments, 9/11 truth is spreading surreptitiously through America's colleges and universities. I know a significant number of professors who are teaching the evidence that 9/11 was an inside job, and in some cases even designing entire courses around the false flag interpretation of 9/11. Adnan Zuberi's award-winning new film 9/11 in the Academic Community examines the way universities seek – or avoid – the painful truth.

The only two countries on earth where 9/11 truth is openly supported by mainstream institutions are Iran and Malaysia. (No wonder Israel wants to attack Iran, and appears to have been involved in the destruction of two Malaysian airliners.) Later this month a group of leading 9/11 truth advocates will be attending the [New Horizon Resistance Conference](#) in Tehran. The

group of 9/11 truth seekers in Tehran will include Globalization Studies professor Anthony Hall, We Are Change founder Luke Rudkowski, "Operation Terror" director Art Olivier, former NSA officer and whistleblowing journalist Wayne Madsen, and yours truly.

Press TV, "the Iranian CNN," is also helping spark 9/11 truth by publishing such articles as:

Arrest Kissinger for Both 9/11s (my new one)

and

Neocons confess: We did 9/11 anthrax! (most-read 9/11 truth article of this anniversary)

In a sense, the biggest "9/11 truth leak" this anniversary is the wave of over-the-top neocon propaganda hyping the alleged Islamic terror threat in ludicrously unrealistic fashion. The September criminals are obviously signaling their desperation – and their guilt – by hyping such stories as the "11 Libyan jetliners set to attack US on 9/11" and the "ISIS to invade US from Mexico."

Another big leak: The [effort to declassify the 28 missing top-secret pages of the Joint Congressional Inquiry 9/11 report](#) has been drawing attention from the mainstream as well as the alternative media. Is this a "Blame the Saudis, Protect the Israelis" limited hangout? Maybe we'll find out before the next anniversary.

Finally, no discussion of recent 9/11 truth leaks would be complete without mentioning the classified 2003 International Atomic Energy Agency report documenting the use of miniature nuclear weapons in the 9/11 demolitions. [According to VT Senior Editor Gordon Duff](#), angry IAEA personnel are finally pushing this story out, in part because they have been authorized, or at least tolerated, in doing so by senior members of the military and/or administration. VT sources report that new-generation miniature fusion weapons have been used in a series of false flag events during the past two decades, including 9/11; an international organized crime ring with close ties to Israel is the leading suspect. Stay tuned to this publication for updates on this developing story.

So there you have it – this year's top 9/11 anniversary news, as reported this morning on False Flag Weekly News.

[YouTube - Veterans Today -](#)

I look forward to coming back here next year for a report on even bigger 9/11 truth leaks, maybe even a "case solved, criminals jailed and/or executed" game changer.

To reduce the chances of a new 911, I am going to post the best I know of that proves Israel and the Bush clan did the last one. Youtube does not allow embeds to this web site, but links still work, and I think there will be quite a bit here you may not have seen before. I will start with the obvious (for newbies) and move on to the really damning stuff.

First, who could miss Larry Silverstein saying "pull it" to building 7?

And the BBC blooper announcing building 7 fell long before it did was a FATAL SCREW UP And believe it or not, the FBI, which was destroyed when building 7 fell, came out a few years later and said the phone calls from the planes NEVER HAPPENED, (and this is how Muslims got framed up for this) but the scamming ziopress never mentioned the FBI called B.S. on the plastic knives and boxcutters and Arab terror meme. Fortunately the CBC in Canada at least had the balls to air it.

And the nose out video is a serious oddity, it suggests explosives were placed in the building to fake it all, and is the root of the no plane theory. I am undecided on this one, but It certainly is an oddity worth considering.

Now onto the more unusual stuff

Did you know that Fox aired the exact plot for 911 via a television program six months before it happened? That would be predictive programming to the MAX. Someone there was in the know.

And there was a man named Johanneman who was later murdered because he witnessed the detonation of the bombs in the basement There are a lot of shill videos about this guy after he was murdered, further proof it is all legit

And you should not overlook the testimony of This witness, who confirms what Johanneman said

And the most shilled of all 911 witnesses is also among the most damning, William Rodriguez I think the best testimony of all was from the firemen, they are so clear about this it totally destroys the official story. Show THAT ONE to your "GOTTA GET BINLADEN" brainwashed pal.

Now onto the demolition sprites, proof the WTC was set up for demolition well beforehand

This video nails the demolition unbelievably well - a couple minutes in it also shows a man getting blown out of a window by an obvious demolition charge

And why, again did WTC 7 look so much like a controlled demolition? Ask Larry Silverstein!

Fire does not bring skyscrapers down, and the CCTV tower in China proves it. This video covers the CCTV fire very well, this fire is the most damning of all towards the official story on 911, because the CCTV tower was very similar to WTC7.

And Russia has called B.S.on 911, perhaps that is why they are test firing nuclear missiles?

Ok that probably has more to do with Isis being fake and the Ukraine conflict and sanctions and NATO threats, but even all of that is still games being played by America zombie child of Israel, who could blame Russia for lumping 911 in with the latest games?

I would laugh if this x class solar flare messed up any remote control plans.

Barry Jennings testimony as to his experience while attempting to go to the NYC command center located in WTC 7 on the morning of 9/11 after both towers fell. He reports that upon entering the building, the lobby was in pristine condition. Taking the stairs up to the command room level and entering the room, he sees still warm coffee, half eaten donuts and fresh cigarette butts...but no people. As he is heading back down the stairs, a massive explosion in the lobby blows out the staircase, leaving him hanging on the the railing. He then pulls himself up and makes his way down to the lobby wheee he is met by emergency personnel who escort him out of the building while stepping over bodies. Do these bodies belong he actual command and control team who remotely guided the planes during the attacks? Dead men tell no tales.

Kevin,
I see our President's ISIS announcement, on the eve of 911, as a deliberate attempt to silence critics. It also shows how carefully this three month propaganda campaign was planned. Until the American people wake up to our governments lies, we are no better than the masters we serve. I'm pissed!

Don't forget Counterpunch's Alex Cockburn who remained a 9-11 Truth opponent to his dying day and we can safely assume his cock is burning in hell right now. And Matt Rothschild at The Progressive is another Arab Conspiracy Theorist Dupe, despite the fact that he denounces 99.9% of GWBush's policies. Rothschild humm. Where have I heard that name before?

Those who planned and carried out this attack obviously had motive, access to the buildings, intelligence, financial and physical resources, and detailed knowledge of how to accomplish this destruction and confine it to these buildings

without destroying all of New York or more. Since the Pentagon was also involved, this means the four star generals were also involved. These events could not have happened without the knowledge of the 39 four star generals, who were acting either on their own or under presidential orders. It is difficult to find and prove the truth when one is dealing with government officials who are protected with the full military force and power of government in their illegal, treasonous secret acts against the

My condolences go for the families of victims of that day. And that day was just the smallest snowball pushed over the slope, so victims of that day are beyond the poor 3 thousand souls taken on Mannhattan. Truth is obvious, truth is more beautiful than lie and truth will set you free. Even you mr.Rumsfeld. And mr.Cheney. Once the truth springs from the media monitors then the G.H.W.Bush greatest quotes will come into existence. The scary part once the truth arrives will be, so if those Arabs didn't do it who did it?
